

Canaan Title Solutions brings you the industry's leading title plant software using the best and most current development tools. The benefits delivered by Canaan Title Solutions can be further enhanced by Internet publishing on Canaan Online. These dynamic products can help improve productivity and provide better customer service and increased profitability.

Canaan Online

Canaan Online is our desktop application for selling access to your title plant database and images using the Internet as a network. By selling access to your valuable records, you can gain income from orders and searches that are being performed by other companies. For consistency and familiarity, online users use the same application as your in-house staff.

Canaan Support

Our goal is to provide personalized, knowledgeable, friendly service to each client that uses Canaan Title Plant, and other supported products. We answer the phone and work hard to knock out whatever issue you may be having, whether it's the title plant software, backups, server issues, printers and much more. The staff at Canaan Title Solutions has worked for years in the title software industry helping clients with a variety of issues every day. The core of our company has over 65 years of combined knowledge of title plant software support and over 85 years of combined computer support know-how.

Software specifically designed for the title industry with the researcher in mind.
